MINERALS WESTCOAST

MINERALS WEST COAST

A Strong Voice for the West Coast Minerals Industry

Supporting the future of mining on the West Coast

Mining has helped shape the West Coast for generations and continues to provide jobs, investment and economic opportunity for the region and New Zealand.

Join the organisation working to support a strong, responsible and sustainable minerals industry.

Why Join Minerals West Coast?

Membership connects you with a network of miners, contractors, suppliers and industry professionals working together to strengthen the minerals sector.

Member benefits include:

- Industry representation with local and central government
- Networking with mining professionals and suppliers
- Workshops, seminars and industry forums
- Advocacy on policy, regulation and land access
- Access to industry updates and information

What We Do

Minerals West Coast works on behalf of the minerals sector to:

- Advocate for responsible access to mineral resources
- Promote health and safety best practice
- Encourage environmental stewardship
- Support education, training and employment
- Promote the West Coast's mineral potential
- Represent the industry in policy and planning discussions

About Us

Minerals West Coast represents the businesses and people working across the minerals sector and advocates for a responsible, sustainable and successful industry.

Together we ensure the minerals industry continues to contribute to the West Coast economy and community.

Who Should Join?

- Mining companies
- Prospectors and explorers
- Contractors and operators
- Equipment suppliers
- Engineers and consultants
- Businesses supporting the minerals industry

If your business is involved in mining on the West Coast, **Minerals West Coast is your industry organisation**.
